Every plant is guaranteed to be true to name, up to grade and in good condition when it leaves the Nursery. We will replace, without charge, any proved otherwise, provided it is reported promptly. We will replace the following proper planting season at one-half original cost, any plant sold at list prices that dies within six months, provided it has been cared for properly and the account has been paid in accordance with our terms. This guarantee does not cover losses due to drought, storms, severe winters, disease or other factors beyond our control. We do not guarantee plants transplanted from one location to another on customer's property.
